ABSTRACT

This bibliography on the prediction of college grades from reading scores includes books, government documents, journals and periodicals from the late 1920's to the early 1970's. Most of the materials are directly related to the problems of reading ability and academic performance. However, some books in statistics and design are also cited. (Author/HS)

BIBLIOGRAPHY FOR THE PREDICTION OF COLLEGE GRADES FROM READING SCORES

Bonnie C. Pedrini and D. T. Pedrini

University of Nebraska at Omaha, Omaha, Nebraska 68101

Abstract

This bibliography includes books, government documents, journals and periodicals from the late 1920's to the early 1970's. Most of the materials are directly related to the problems of reading ability and academic performance. However, some books in statistics and design are also cited. This bibliography is both selective and representative.
